

BRIAN PARKER

SOFTWARE ENGINEER

PERSONAL PROFILE

An experienced web and mobile developer looking to hit the ground running with your team

WORK EXPERIENCE

Software Engineer

[Webpage](#)

Noi Live, Inc | Mar 2021 - present

A mobile app that connects DJs to promoters, potential clients and fans with an interactive digital EPK

- Refined JavaScript and JSX logic which increased React component rendering speeds
- Implemented state management with React Native which significantly reduced Firestore data usage
- Enhanced user experience by unifying design themes using React Native Elements package
- Developed a variety of reusable React Native components to create additional features for users
- Translated a React prototype app to React Native which expanded market availability to mobile device users
- Beta tested UI/UX features with customers to improve user interface features and performance
- Migrated databases from MongoDB Atlas to Firestore resulting in increased scalability

Software Engineer

[Live - GitHub](#)

Full Stack Web Application: Wedding Planner

- Incorporated user authentication via Passport.js
- Created database models with validation using Sequelize ORM
- Routed API and HTML using Node.js and Express.js
- Designed reusable components and pages using Handlebars.js template engine
